4	On 10 hymnat dutomatus Cluster but 4	
٥٥	On 19 August, intensive flying by trainers was observed at the field.	•
•	Comment. It is believed that an ordnance depot of the ground attack corps of the Twenty-Fourth hir army is stationed at the former artillery equipment park. The observation of in-line engines, probably I1-10 engines, tends to support this assumption. The headquarters of	50X1-HUM
	the air technical division assigned to the ground attack corps is believed to be billeted on Thaelmann Platz. The officers mentioned had been reported previously.	
2.	Comment. A repair shop for jet engines is believed to be located in the northeastern corner of the field.  the testing of jet engines	50X1-HUM
	The software of jet ongines	50X1-HUM
3.	Comment. The present report does not indicate to which unit the aircraft observed are assigned and whether they are stationed at the figure 10 date, no air unit was believed to be stationed there. The aircraft probably remained only temporarily at the field.	eld.
40	Comment. According to the present information, units from the Falkensee restricted area moved to the NSKK Kaserne. It was previously assumed that the headquarters of the ground attack corps of the Twenty-Fourth Air army which occupied the Falkensee restricted area moved to Finsterwalde. This was inferred from a railroad shipment which was	50X1-HUM
	dispatched from Falkensee to Finsterwalde on 11 August	FOV4 1111M
